

Mea C Series Heavy-Duty Cast-Iron Edge Rail Channels 100mm X 225mm Class E

Product Images

Short Description

Class F900 w/ lateral ribbed design for stability in concrete bed, matching covers with optional protection, variable heights & ductile iron heelguard.

Description

The MEADRAIN C series drainage systems are optimally designed for heavy-duty in which high wheel loads act on the channels. With force-fit ductile iron edges, these also meet the toughest requirements. The extensive range of products in nominal widths up to 400 mm with different heights offers the perfect solution even for the most demanding requirements.

Features:

- Loading Class F 900
- Lateral ribs for more stability and optimal anchorage in the concrete bed
- Matching covers for the highest load
- Covers optionally available with boltless grating protection or 4-fold bolttable
- Various constructive heights available
