

100x250mm Deep Ductile Iron Longitudinal Heelguard - Class D 240kN

Product Images

Short Description

Suitable for green spaces, front yards, and gardens, the 100x250mm Ductile Iron Heelguard with Class D 240kN is a durable drainage solution.

Description

When it comes to the drainage of pedestrian zones, parks and car parks, MEA DRAIN Supreme is the ideal solution in terms of functionality and visual appeal. Thanks to its slender edge rails, this product range's perfect joint with adjoining slabbed and paved surfaces is guaranteed. The edge rails are embedded in channel bodies made from eco-friendly, high-strength polymer concrete which protects groundwater reliably from chemically aggressive liquids.

Features:

- Wide range of grate options
- Safe and secure
- Various depth options

Uses:

- Car parks
- Shopping Centres
- Schools
- Public Areas
