

Traffic Cone Slim Body Orange 900mm (NZTA APPROVED) CUSTOM BRANDED

Product Images

Short Description

Navigate with confidence and stand out on the road with our sleek Traffic Cone Slim Body in vibrant orange, spanning 900mm for optimum visibility. NZTA approved for quality assurance, these cones can also be customized with your branding, ensuring safety meets style on every journey.

Description

NZTA approved orange traffic cone with 2 bands of class 1 reflective tape. Cone is manufactured from a single piece of PVC material making it strong and flexible. Measuring 900 mm high, each cone weighs 4.5kg. The well-balanced weight allows it to withstand moderate weather and wind. This slim body traffic cone stands nearly a metre tall meaning it is ideal for situations where visibility is critical, yet space is limited.

Custom branding your company logo on to these traffic cones increases your branding and profile out in the construction industry and allows you to easily identify your cones at the pack-up stage of your project. There is a one-off fee of \$250.00 + GST to order the branding plate.
