

# Plate Locks Corner

## Product Images

## Short Description

The corner piece for the Plate Lock System provides a secure, trip-free finish with a pre-drilled mounting hole and includes one anchor and washer for easy installation.

## Description

---

This corner piece is specifically designed for use with the Plate Lock System, providing a secure and seamless finish to the edges of road plates. With a pre-drilled mounting hole, it ensures quick and easy installation. The corner piece helps eliminate trip hazards by neatly finishing the corners of the plate lock perimeter.

Each corner piece comes complete with one anchor and washer for a reliable, sturdy fit, enhancing both safety and stability.
