

U Shape 300mm Retaining Pins (250 pack)

Product Images

Short Description

300mm U shaped retaining pins. Used for pinning down Geotextile fabric, weed mat, and erosion control matting and blankets. Sold in packs of 250 pins.

Description

GEOmasta 300mm retaining pins, designed for pinning geotextile fabric and erosion control matting in soil. Chisel tipped pin ends allow for easy piercing through geo fabrics for a quick and effortless installation. 300 mm pins are ideal for pinning fabric through loose topsoil, whilst the shorter 150mm pin is used for firm compacted soils.
