Short Description

Ideal for removing Waratahs, this 1m long Y Post Chain Extractor comes with tool, chain and coupling.

Description

Y Post Extracting Tool & Chain, 1m Long. This convenient post puller is ideal for removing waratahs and fence posts using mechanical equipment. The tool fits over a fence post easily, or around a post using the narrow slot - the jaw will not slip and locks on to the picket or post. The Y shaped jaw picket remover with included chain and coupling makes it ready to use with a tractor or bob cat. Ideal for building and surveying professionals who need to remove lots of posts. This tool makes light work of removing many waratahs quickly.
