

Short Description

140 litre portable spill response kit ideal for general spills, liquids and hydrocarbons.

Description

Be prepared with a spill kit that is sized for your site. Spill kits are convenient and compact bins containing everything you need to mop up a spill quickly and safely. They contain the equipment you need when you need it. Plus, because they are portable, they can be positioned near potential spill areas, or near chemical or fuel storage zones. It's crucial to have the right spill kit for the fluids used at your site. Spill kits are sized by litres, ie a 500L spill kit is intended to absorb up to 500 litres of liquid.

This 140L spill kit will contain and absorb up to 140 litres of most liquids. Made from organic material making it ideal for general spills and hydrocarbons.

Kit contains:

- 2 x Heavy duty contaminated waste bags
- 1 x Large organic floorsweep
- 6 x 1m socks
- 30 x 450 x 500mm pads
- 2 x Pair Nitrile gloves
- 2 x Pair safety specs
- 3 x Disposable masks
- 1 x Coverall
- 1 x Dust pan & brush set
