## Jaybro Sign Materials Information

### Metal Signs (CODE 01)

Durable 0.6 mm thick steel signage. A durable sign designed for indoor and out door use. A 7 year weather resistant coating will resist rusting and fading. Pre-drilled mounting holes for easy installation on walls and fences. Standard with rounded corners.

### Poly Signs (CODE 02)

Flexible 1.6 mm thick polypropylene. A weather resistant option that is highly recommended for outdoor use. UV stable, resisting fading and cracking for up to 5 years.

Polypropylene is recyclable and made from 70% recycled materials. Standard with mounting holes for quick and easy installation. Comes with rounded corners.

### Coreflute Signs (CODE 03)

3 mm fluted core plastic. A low cost alternative to metal or poly signs. A recommended solution for temporary signage applications both indoors and out.

Use caution when installing Coreflute signs with some glues and construction adhesive, damage can occur.

### Self Adhesive Vinyl (code 04)

A Heavy duty, permanent Adhesive vinyl, suitable for indoor and outdoor applications. Simply peel the backing paper off to apply to any clean, smooth surface.
