

Coldlay Asphalt 20kg Bag

Product Images

Short Description

Easy to use coldlay asphalt for repairing pot holes and for minor repairs to asphalt pavements. Simple 3 step process means roads are ready to open immediately after repair.

Description

Jaybro Cold lay Asphalt is a new and innovative permanent road repair product designed to make your job easier, quicker and safer. This product eliminates backup maintenance and suits all applications. Great for filling pot holes, it is very easy to use: simply clear the pothole of any water and excess debris then lay the cold lay material into the hole. Then, compact it using a punner or shovel, or ideally a powered compactor.

Features:

- Can be used in all weather conditions
- Road can be opened to traffic immediately
- Lasts up to 3 years
- 12 month shelf life from date of manufacture

Ideal for:

- Quick repair and filling of pot holes and surface cracks in asphalt roads

APPLICATION

Surface Preparation:

Clear the pothole of any water and excess debris.

Mixing:

No mixing required, use straight from the bag.

Placement:

Then lay the cold lay material into the hole. If it is deeper than 50mm, lay the coldlay asphalt in 30mm thick layers. Then, compact it using a punner or shovel, or ideally a powered compactor.

Storage:

12 month shelf life from date of manufacture.

Yield:

12 Litres = 0.012 cubic metres
