

Mains Marker Tape Detectable Green (Water Main)

Product Images

Short Description

Green water main marker tape - 250 metre roll printed with "CAUTION WATER MAIN". Used to warn excavators of buried cables, pipes, gas mains and other buried services. To learn more about locating underground services and staying safe during excavation work, check out our article on [avoiding mishaps during underground excavation](#).

Description

Detectable Mains Marker tapes also known as underground warning tapes provide a warning message to identify buried services and dangers beneath the ground. Packaged in handy dispenser box these markers are ideal for poly or PVC services.

Brightly coloured tapes display a range of detectable danger warnings

WATER MAIN

RECYCLED WATER MAIN

GAS MAIN

SEWER MAIN

ELECTRICITY MAIN

STORMWATER MAIN

COMMUNICATION MAIN

POTABLE WATER MAIN
FIRE FIGHTING MAIN

Mains Marker tape should be laid above underground services evenly between the service and the surface, providing a warning to machine operators before any damage to the service is caused during an excavation.
