

Annealed Tie Wire 95 metre roll

Product Images

Short Description

Annealed tie wire 95m roll, 1.57 mm diameter.

Description

Annealed black tie wire is an essential product for any work site. It is softened for ease of use and packed in a belt pack for use with or without a reel. Suitable for tying barrier mesh, bars, rebar and star pickets, and for a myriad of other uses on site. This tie wire comes as a cost effective 95 metre roll that is resistant to tangling. At 1.57mm diameter it is malleable and flexible making it easy to use on site for all general tying jobs.

Features:

- 95 metre roll
- 1.57mm diameter thick
- Annealed for flexibility and strength
