

SILTmasta Hessian Sand Bag

Product Images

Short Description

SILTmasta hessian sand bags measure 830 mm x 340 mm. **Note: minimum order quantity is 100.**

Description

Durable hessian sand bags, ready to fill. Sand bags are ideal for temporary water diversion, retaining walls or weighing down road signs. Made from traditional and natural hessian, they are tough and durable with leak-proof stitching. Sold empty, they are an essential addition to any drainage, construction or road work operation. Each bag measures 830 mm x 340 mm.
