

Visor Face Shield Holder Attachment for Hard Hat

Product Images

Short Description

Constructor safe visor holder for hard hat. Use in conjunction with the [high impact polycarbonate visor](#) also available separately from Jaybro.

Description

This face shield attachment is used to convert a regular hard hat into a hard hat and face shield combination. When used with a polycarbonate face shield or visor, it provides extra protection against grinding or chemical processes at work. Use with hard hats and clear visors available separately from Jaybro.
