
EROMasta Weed Matting - 1.8 x 50m Black

Product Images

Short Description

Black weed mat 1.8 metres x 50 metre roll. Perfect for weed control in landscaping, nursery applications and in garden beds.

Description

EROMasta Weed Mat is a flexible, tightly woven poly mesh used for weed control. An inexpensive and flexible product, it is UV stabilised to create a longer lasting barrier against weeds. The structure of the EROMasta Weed Mat is tight enough to prevent light reaching the soil so weeds cannot grow, however it also allows air and water to flow through in order to prevent soil souring.

Applications:

- Landscaping and roadsides
- Nurseries
- Weed control in garden beds

Features:

- Tight weave prevents light reaching the soil
- Prevents weed growth
- Allows air and water to pass through the weave
- Exceeds Australian Standards
- Economical and lasts up to 12 months
- Grid line is used by nurseries for aligning pots
- Size: 50m x 1.8m
- 120gsm fabric weight
- Woven poly
