
Absorbent Spill Sock - 5L

Product Images

Short Description

1m long Sorbex absorbent universal sock, capable of absorbing approx 5L.

Description

Absorbent spill sock, designed to handle hydrocarbons and hydrocarbons derivative products. Measuring 1 meter in length and designed to absorb up to 5 litres each sock.

An extremely absorbent product for cleaning up spills of synthetic oils, and oil-based products. Recommended for use in industrial, commercial and manufacturing industries and facilities.

For the best results in spill control and clean up, use in conjunction with Sorbex spill pads and floor sweep.
