

Wheel Stop Fixing Pin 360mm long

Product Images

Short Description

Wheel stop fixing pin, 360mm x 13mm

Description

Use to fix wheel stops and speed humps to gravel or asphalt. This long 360mm pin is 13mm wide with a 20mm head, and is ideal for fixing rubber wheel stops in car parks. The threaded shaft is suitable for both asphalt and gravel surfaces, and it is highly effective at holding wheels stops level and in the desired place.
