
Temporary Warning Sign Upright Frame

Product Images

Short Description

Size: 1.5m (H)

Description

35mm double sided stand that can be used with a drivable stake or folding base. The upright frame easily drops into the folding base allowing it to be highly versatile and be assembled smoothly and quickly.

Warning signs slide onto the stand and fit securely with the sign locking system. The folding base has 4 legs that can be easily setup and folded down for it to be removed and stored easily.

- Manufactured with high grade galvanised steel
- Versatile and lightweight for fast assembly
- Double sided stand holds 2 warning signs simultaneously
- Locking system ensures signs are firmly secured in place
- Folding base is light and compact for storage
