

Portaboom Remote Unit

Product Images

Short Description

Replacement/spare parts - Remote Unit for a PORTABOOM®.

Description

PORTABOOM

PORTABOOM® main unit, accessories and spare parts available at Jaybro. The PORTABOOM® has changed the way many traffic controllers management their duties. Improving safety and cost efficiency, replacing traditional stop/slow methods of traffic control.

The traffic controller is able to operate the PORTABOOM® using a remote control unit. Creating a safe zone and eliminating the need for the controller to stand in the direct line of traffic. PORTABOOM® provides the added protection of a physical barrier to secure the worksite.
