Short Description

Stimela steel cap work gumboot - size 12

Description

"A unique mix of nitrile/PVC helping resistance to cracking with a synthetic inner woven material, highly resistant to wear and tear and removable PU innersole for all round comfort. Anti-static, high nitrile sole gives better abrasion resistance and excellent slip resistance on oil and water surfaces, extra deep tread lugs help to clear out the sole in muddy conditions. The ideal work gumboot with steel toe cap, Shock absorption max 200 Joules and a unique mix of nitrile/PVC with kick off lugs for easy removal. "
