Description

600 x 450mm Emergency Stretcher signs. Provide information to the location of, or direction to emergency-related facilities. e.g. exits, first aid, safety equipment etc.

This first aid safety signs feature a white pictogram of a stretcher and bold white text on a green background. manufactured from 1.6 mm flexible weather resistant polypropylene. This highly durable sign is recommended for indoor and outdoor use, with a UV stable coating that resists fading and cracking for up to 5 years.

Polypropylene is fully recyclable and made from 70% recycled material. Comes standard with rounded corners and mounting holes. Complies with AS1319:1994.

Jaybro is a manufacturer of road, traffic and safety signage, our manufacturing facilities enable us the capability to custom make signage to suit any requirements.

Poly signs are more durable and UV resistant which will mean that they will last longer than any other options. Saving you time and money not having to replace broken, lost or faded safety signs

The advantages of polypropylene signs; they are UV stable and resists fading and cracking for up to 5 years. lasts longer than Coreflute and metal (will outlast Coreflute up to 7 times). they are flexible, they won't dent or crease and are cheaper than metal. They can't be pulled off fences like flute, yet are easy to handle.

If you can't find the sign you need, or need a customised version of a stock sign, Call, email or live chat us now! we have helped thousands of customers fill their unique signage needs.
