Description

First Aid Emergency signage - Nurse Call, made from polypropylene, measuring 600 x 450mm.

Recommended for Civil and Construction sites, use onsite to direct and inform employees and contractors. Easy to recognise green background with bold white text and symbol.

Manufactured from 1.6 mm poly that comes with a 5-year weather resistant coating. suitable for use indoors and outdoors. Standard with rounded corners and pre-drill mounting holes. The round corners reduce the chance of catching, cutting and tearing. The pre-drilled holes make installation easy.

As a major supplier of traffic, first aid and safety signs, Jaybro has the capabilities to custom make signage from steel, polypropylene, Coreflute and self-adhesive vinyl. We can help design and manufactured signs to suit your needs.

For a Free quote or further information on custom or off the shelf signage, call email and live us today.

Poly signs are more durable and UV resistant which will mean that they will last longer than any other options. Saving you time and money not having to replace broken, lost or faded safety signs

The advantages of polypropylene signs; they are UV stable and resists fading and cracking for up to 5 years. lasts longer than Coreflute and metal (will outlast Coreflute up to 7 times). they are flexible, they won't dent or crease and are cheaper than metal. They can't be pulled off fences like flute, yet are easy to handle.
