

CAPABILITIES STATEMENT

PARTNER WITH JAYBRO FOR YOUR NEXT PROJECT

We offer experience and help you can count on, coupled with capabilities to rival Australia's biggest safety and consumables suppliers. Partnering with Jaybro for all your safety, consumables, temporary fencing, barriers and traffic management needs gives you access to a range of benefits including:

End to end supplies and services for every aspect of your business

In-house manufacturing coupled with ethical sourcing

Contract pricing and product selections customised for your business

A flexible and reliable supply chain that celebrates diversity

HOW WE CAN HELP

As a supplier with over 20 years' experience in the civil consumables sector, we understand your business. Providing prompt and seamless service is our key focus, meaning you can get on with your day without worrying about trivial supply issues.

Our credibility as a trusted supplier is strengthened time and time again as we continue service Australia's biggest civil, infrastructure and private construction projects. To chat to one of our team about specific requirements for your next project, give Jaybro a call on 1300 885 364.

BENEFITS OF CHOOSING JAYBRO

High quality brands

- Jaybro carries the best in temporary fencing, water filled barriers and concrete crash barriers, traffic control, geosynthetics, PPE, hoses and more. With leading brand such as Fortress Fencing, Deltabloc, GEOMasta, Win United, 3M, UVEX, Steel Blue, Oliver, MSA, DNC Workwear and much more, you can be sure the products you order will stand up to the task.

In-house manufacturing coupled with ethical sourcing

- We manufacture our own printed banner mesh, precast concrete barriers, road and safety signs and more right here in our facility in Sydney. If we can't make it here, we source products from quality, reputable manufacturers around the world to bring you the best in civil consumables. Our supply chain team actively embraces diversity and innovation, and we're constantly seeking new ways to fulfil our customers needs.

Local supply with regional locations across Australia & New Zealand

- Fulfill your local content requirements with Jaybro's flexible supply options – distribution can be coordinated from our locations in Arndell Park, Laverton North, Dandenong, Eagle Farm, Queanbeyan, Newcastle, Coffs Harbour, Mackay, Kilburn, Malaga, Darwin, Auckland and Christchurch.

Sustainability and environmental focus

- We acknowledge our responsibility as a manufacturer and supplier to raise awareness and understanding of environmental sustainability, reducing our environmental footprint and embedding a 'sustainability' culture into the workplace. As a manufacturer of numerous metal products, the operations team at Jaybro has invested large amounts of time and energy into refining our scrap metal procedures, partnering with local scrap metal recyclers to ensure we are able to recycle 100% of our metal waste created from production. Combined with Jaybro's paperless workplace, we have significantly reduced our carbon footprint and will continue to do so

Contract pricing customised to your needs

- If your project calls for a substantial volume of product, Jaybro can offer economies of scale for large orders. Plus, with the option of highly competitive contract pricing, we can leverage economies of scale with our suppliers, getting you the best deal possible.

Order your way

- Our friendly customer service team are available from 6.30am to take your call when you begin your day. Or, if you prefer you can easily order online and set up a preferred products list using our robust e-commerce platform. Our easy to use website contains thousands of products to help you get the job done. We can also manage planned periodic restocking of your common consumables.

End to end supplies for every aspect of your business

- Our product range is all about making life easier for construction contractors. That means we offer products to keep workers safe and enable them to get the job done quickly, and do it well. From earplugs through to erosion control; T-top bollards to temp fencing; coveralls to coffee; signs to shovels – we've got it all!

On-site services such as PPE Vending and on site warehousing

- The Jaybro vending solution is designed to control and monitor inventory usage for each staff member on site. The automated dispensers are on site and online 24/7, and are monitored and restocked by Jaybro staff. Staff and contractors self-serve using unique swipe tags, without the delays or expense of having staff in stores full time.

Safety compliance, support and documentation

- We can assist you in sourcing MSDS and spec sheets for a myriad of products – simply let our friendly customer service team know what you need and we can collate the details for you. Many of these are available online 24/7 along with educational resources such as our in-depth product articles.

Respirator fit testing

- To help you comply with AS/NZS1715:2009 Jaybro can provide in-house and onsite respirator fit testing in NSW and QLD. Workers are required to have a respirator fit tested before use, and after the respirator has been in service for 12 months. Contact us to find out more.

SUPPORTING INDIGENOUS AUSTRALIANS

As part of our commitment to supporting and empowering indigenous businesses, Jaybro has attained membership with Supply Nation. Bringing together the biggest national database of Aboriginal and Torres Strait Islander businesses, Supply Nation facilitates stronger procurement ties between emerging indigenous businesses and some of Australia's largest corporations.

Designed to harness procurement spend and redirect it to traditionally under-represented businesses, Supply Nation assists indigenous businesses to connect with the country's most forward-thinking companies, creating positive social change.

By making procurement decisions that include Indigenous businesses, we can ensure that our supply chain is more flexible, innovative and sustainable.

Likewise, Jaybro is committed to supporting Indigenous Australians with internal career prospects. Embracing this diversity enables Jaybro to better serve our customers and community, realising that many minds and many influences can provide better solutions for our customers.
